StopStick Products

STOP STICK is the world's leading tire-deflation device for high speed pursuits.

Proper deployment occurs well ahead of an approaching target vehicle, with officers a safe distance from the "hit," yet in control of the device position via attached cord reel. Teflon[®]-coated quills penetrate the tire and act as valves, releasing air at a safe, controlled rate.

Stop Stick Product Range

Stop Stick

1

Terminator

Patrol Terminator

Piranha

Barracuda

Stop Stick - Information

SAFE

- Plastic housing provides officer safety during deployment and removal from the roadway.
- Deployment sleeve, with attached 80-foot (24m) cord, allows the deploying officer to stand a safe distance from the road.
- Engineered to deflate tires without blowout; hollow Teflon® coated quills act as valves, releasing air at a safe, controlled rate.
- Eliminates the need for time-consuming, costly and potentially hazardous repair to deflation device.
- No debris left on roadway.

EFFECTIVE

- Deflates tires on virtually all vehicles including cars, buses and tractor-trailers.
- Over 30,000 successful documented deployments.
- Can be used by departments with, or without, pursuit policies.

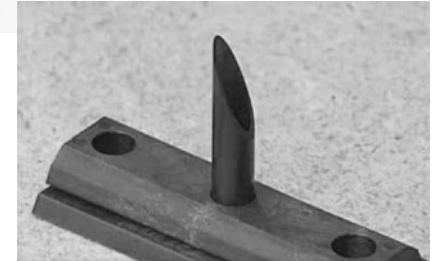

SIMPLE

- STOP STICK® offers the fastest deployment of any tire deflation device.
- Sleeved, trunk-mounted STOP STICKS allow for fast, easy access.
- Lightweight construction - just over 1 pound (.516kg) - makes deployment and retrieval virtually effortless.
- In-sleeve deployment allows an officer to throw device from the side of the road and quickly remove it by pulling the cord reel.
- Multi-directional spikes ensure correct deployment (any side can be facing down).
- Simple design is not dependent on complicated and unreliable technology such as wires.

OPERATIONAL USE

- The Stop Stick is designed for High-speed pursuits. It is safely deployed from cover, ensuring operational personnel are not in harms way. Stop Stick Slowly deflates tires for controlled release where the offender has time to control the vehicle and come to a stop.

Stop Stick -Variations

3.7m Rack Kit

- 4 Stop Sticks
- 1 Cord Reel
- 1 Mounting tray
- Sleeve
- Spare Stop Stick

3.7m SUV kit

- 4 Stop Sticks
- 1 Cord Reel
- 1 Storage Bag
- Sleeve
- Spare Stop Stick

2.7m Rack kit

- 3 Stop Sticks
- 1 Cord Reel
- 1 Storage Bag
- Sleeve
- Spare Stop Stick

2.7m SUV kit

- 3 Stop Sticks
- 1 Cord Reel
- 1 Storage Bag
- Sleeve
- Spare Stop Stick

Training Kit

- 3 Training Sticks
- 2 Cord Reel
- 1 Storage Bag
- 2 Sleeves
- Training Info

Stop Stick - Accessories

STORAGE AND MOUNTING OPTIONS

MOUNTING TRAY

- Mountable in Cars, or SUVs, for quick deployment
- Less than one pound
- Dimensions
 - o Length 36 ½ in.
 - o Height 6 ¾ in.

STORAGE BAG

- Can be moved between vehicles as needed
- Less than one pound
- Dimensions
 - o Length 39 in.
 - o Height 9 in.
 - o Depth 9 in.

HOLSTER

- Durable metal enclosure for SUV or Car storage
- Roughly 5 pounds
- Dimensions
 - o Length 37 ½ in.
 - o Height 9 ¼ in.
 - o Depth 4 in.

ACCESSORIES

The two items below are included with each rack.
May also be purchased separately.

SLEEVE

Double-sewn nylon ripstop construction.

CORD REEL

80 feet (24m) of woven polyester line with comfortable, easy-to-hold handle - an added safety feature for officer deployment.

Terminator and Patrol Terminator

Terminator + **Patrol Terminator**

In high-risk stop situations, such as a DUI, or whenever the officer senses the need, the Patrol Terminator® and Terminator® provide a preemptive advantage. Eliminating the subject's ability to flee successfully, it gives officers an edge when they need it most, facilitates better control of high-risk stop situations and helps prevent dangerous pursuits from occurring. Self-righting end caps allow officers to deploy the device without taking their eyes off the situation. At 17 ½ inches and 24 inches in length, these devices offer enough road coverage to ensure a suspect has nowhere to go.

Terminator

Length	24 inches
Weight	2 pounds
Quills	7
Quill Length	2 inches
Quill Diameter	3/8 inch
Deflation Time	3-5 seconds
Replaceable Cartridges?	Yes
Roll Over End Caps?	Yes

Patrol Terminator

Length	17.5 inches
Weight	1.7 pounds
Quills	5
Quill Length	2 inches
Quill Diameter	3/8 th inch
Deflation Time	3-5 seconds
Replaceable Cartridges?	Yes
Roll Over End Caps?	Yes

OPERATIONAL USE

The Terminator and Patrol Terminator are ideal for roadside stops, when the officer requires additional pre-emptive measures to be in place. The Terminator, longer than the Patrol Terminator is ideal for heavy vehicles and the Patrol Terminator is designed for general vehicles. The Patrol Terminator can be safely stored in a specially designed holster in the passenger side of the vehicle for ease of access.

Both Terminator models are designed to be 'self righting' and can be thrown under the vehicle by the officer without having to ensure correct placement.

Piranha

Piranha

At 3 1/2 inches in length and with a weight of 5.2 , the Piranha is a compact, easy-to-deploy and effective tire-deflation device. The Piranha provides added control during operations where potential for subject flight is anticipated. Excellent support for SWAT Teams, Tactical Units, Traffic Stops/DUI, Detectives, Surveillance, Drug Raids and more.

Length	3 1/2 inches	Quill Diameter	3/8 th inch
Weight	5.2 ounces	Deflation Time	3-5 seconds
Quills	2	Replaceable Cartridges?	Yes
Quill Length	2 inches	Roll Over End Caps?	No

OPERATIONAL USE

The Piranha is designed for covert, tactical use, with the ability to be easily concealed once in position. The Piranha quickly disables a vehicle and prevents the chase from occurring. Can be safely carried by the officer, with its lightweight construction and highly portable design, it is the preferred choice for covertly restricting vehicle movement.

Barracuda

Barracuda

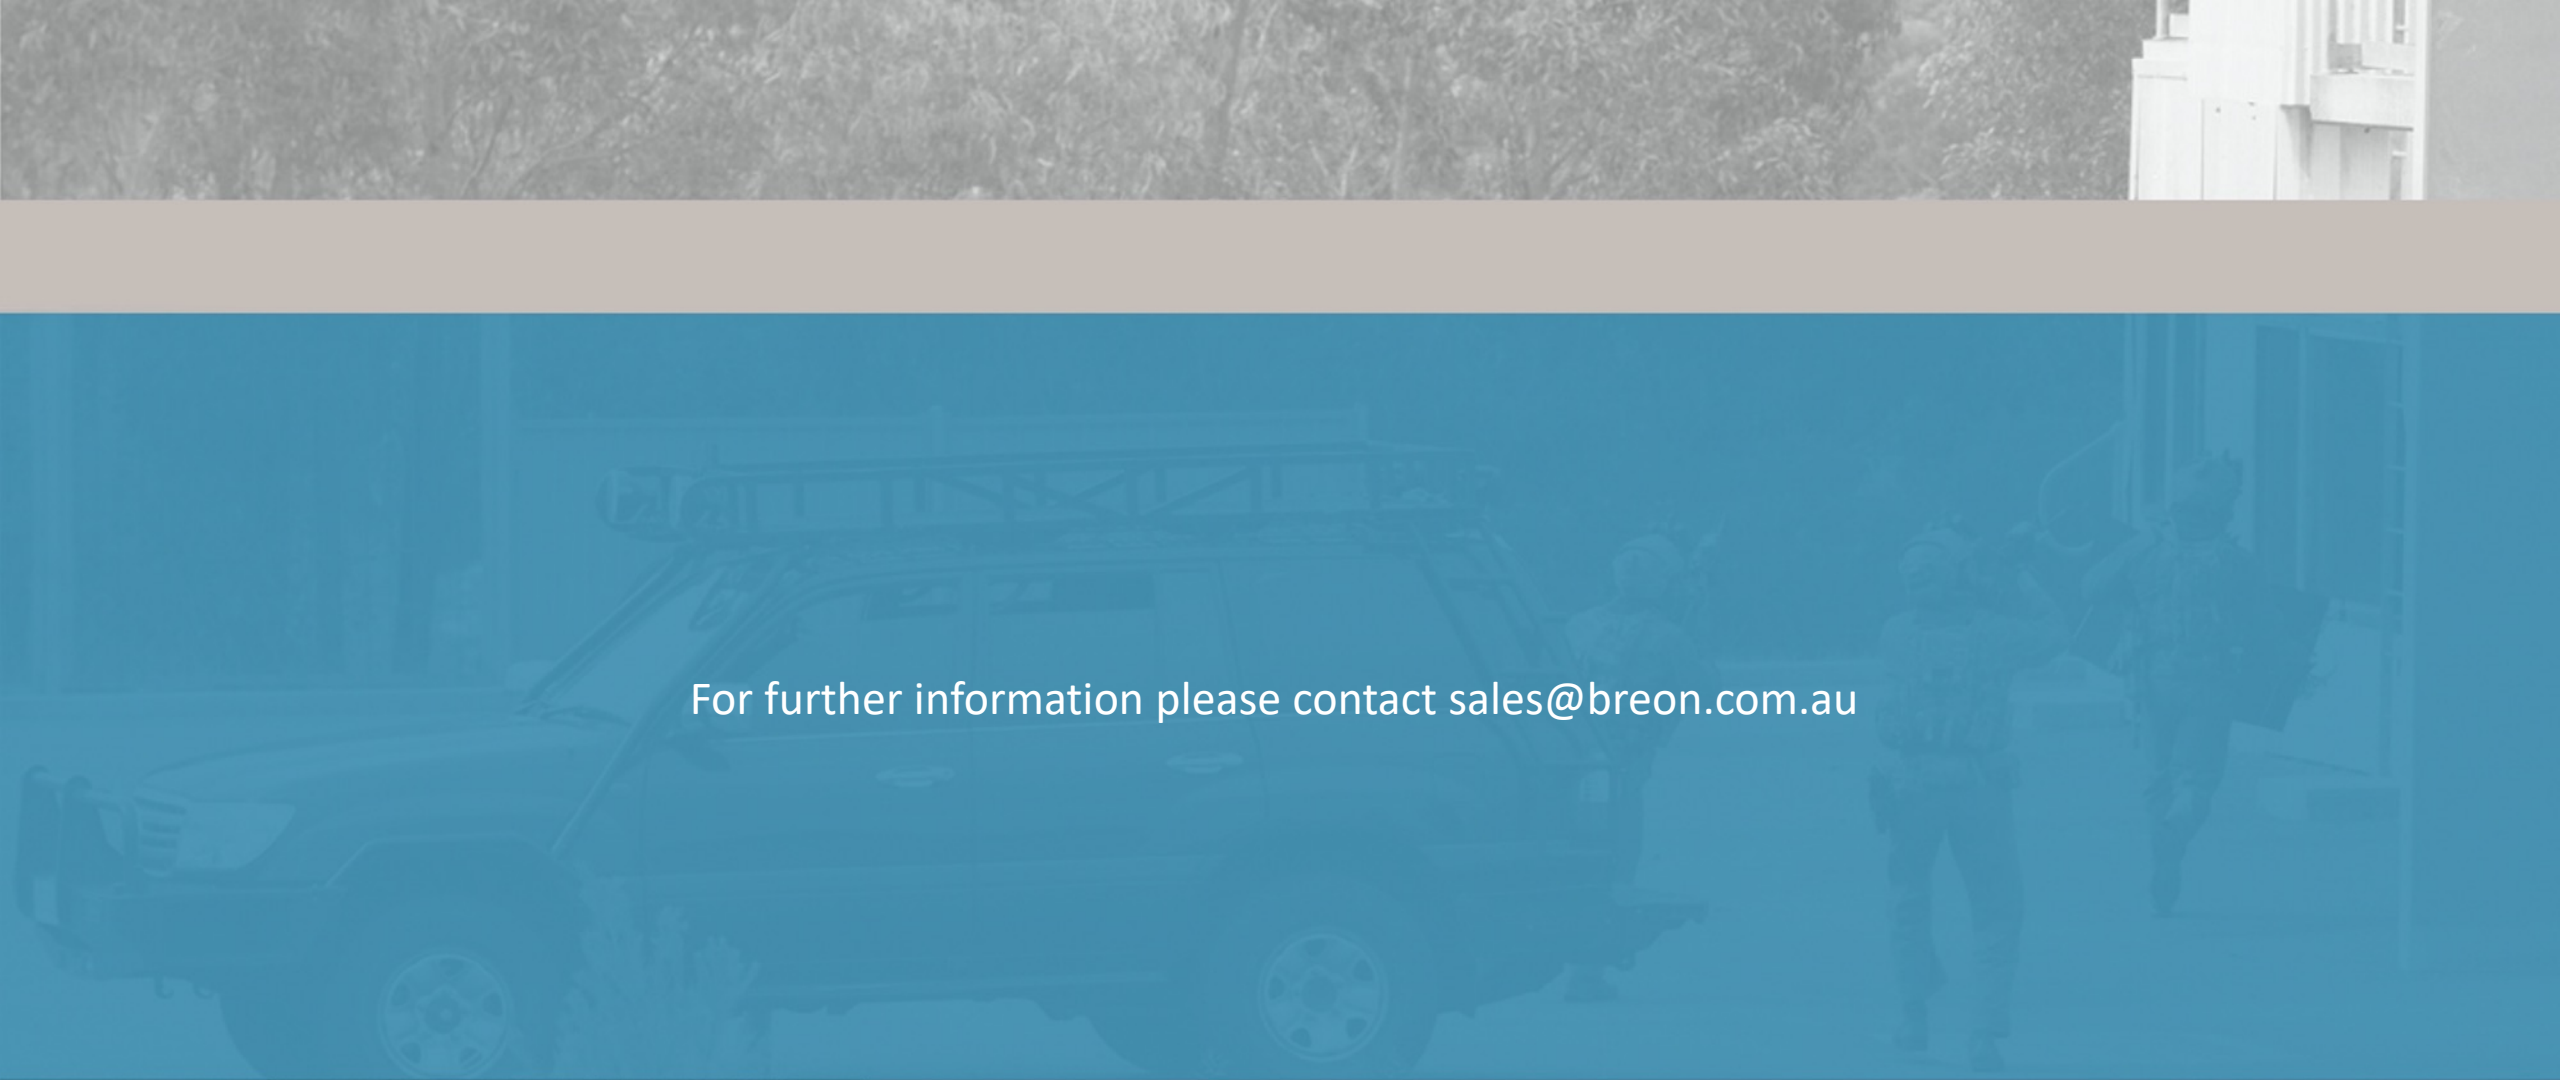

Stop vehicle entry into restricted areas, with Barracuda. Capable of deflating the tires of cars, trucks, buses and tractor-trailers quickly and safely, Barracuda enables fast, easy cordoning of areas to restrict ingress/egress or to control traffic flow. With 3 feet of coverage, Barracuda is excellent for Secured/Gated Area Checkpoints, Sobriety Checkpoints, Border Patrol, Emergency-Site Control, Perimeter Security, Special Events, SWAT Teams.

Length	36/50 inches	Quill Diameter	3/8 th inch
Weight	3/3.7 pounds	Deflation Time	3-5 seconds
Quills	11/15	Replaceable Cartridges?	Yes
Quill Length	2 inches	Roll Over End Caps?	Yes

OPERATIONAL USE

The Barracuda is ideal for barrier entry restriction, used at roadblocks and checkpoints, the Barracuda offers fast deflation with reloadable cartridges.
